low slump concrete

- Adjustable "T BAR" handle provides maximum control
- Effectively drives up to a 14 foot equilateral screed bar
- Screeds 2 in. - 9 in. slumps
- Does not ride up over thick concrete
- Consolidates the concrete as it screeds
- Honda GX35 four stroke engine
- Heavy duty clutch, bearings and drive shaft
- Bearings, shaft and eccentric weight sealed in synthetic oil bath
- Easy screed bar disconnect for changes and transport
- Bicycle style handle available
