

KATO

BUILT STRONG

STRENGTH IN SERVICE FOR OVER 25 YEARS

Family owned and operated for over 25 years, KATO Compact Excavator Sales has been committed to distributing high quality equipment to dealers and rental companies throughout the United States and North America.

Our experience with construction and excavation equipment enables us to test and evaluate the quality of equipment in great detail before offering it through our national network of dealers and distributors.

With our relentless pursuit of the highest possible productivity, KATO Compact Excavator Sales is the largest supplier of KATO Excavators, Track Loaders, and Crawler Carriers in the world.

As a family-owned business since 1994, we don't answer to a board or corporate shareholders. Our only goal is to provide you with the finest equipment in the world and to keep it running smoothly and safely. Our record of service is second to none.

Dealer Support

KATO Compact Excavator Sales, LLC is committed to partnering with our dealers to help them promote, service and sell the full line of KATO Excavators, Track Loaders, and Crawler Carriers along with CANYCOM Concrete Buggies or Power Buggies.

We ensure this, by providing a large sales force, same day parts shipments, and outstanding technical support. A Compact Excavator Sales support representative is just a phone call or email away. So call us today at 1+(800) 538-1447 or visit our website at www.katoces.com.

EXCAVATORS

KATO Mini Excavators, also called Compact Excavators are exceptional for work in a confined place and can out-perform larger, more expensive machines in construction work, landscaping and pipe-laying. With zero-tail-swing and quick, easy setup and mobility, the KATO Mini Excavator not only out-performs other mini excavators, compact excavators and backhoes, it does so with outstanding digging force and cycle time.

VX Series

The 17VX mini excavator combines small size with big performance with the highest breakout force in its class, plus an under-carriage that retracts from a working width of 50" to just under 39" for access through tight spots. Combined with an independent swing boom, this mini excavator can fit into close confines and work with ease around other obstacles. The 17VX comes attachment ready with auxiliary hydraulic piping that accommodates both one and two-way hydraulic attachments.

We are proud to introduce our new line of battery powered mini excavators to compliment our line of electric mini's that we have produced for over 10 years. Our battery and electric powered mini excavators come standard with all the features as their diesel counterparts. You have game changers in your fleet with a variety of options and the diversity to do things inside or out with the 9VXB, 17VXB, 9VXE and 17VXE.

Call for details, specs, and setup options.

VX	HD9B BATTERY	HD17B BATTERY	HD9E ELECTRIC	HD17E ELECTRIC
