Dealer Advantages

CHANGE HYDRAULIC ATTACHMENTS DIRECTLY FROM THE DRIVER'S CAB IN JUST 10 SECONDS.

OilQuick is an automatic quick coupler system which allows hydraulic work tools to be connected and disconnected from the driver's cab. The operator can change between various work tools within seconds.

OilQuickUSA has a full product line of automatic couplers:

- OQ System for Excavators from 1 to 132 US Ton
- OilQuick Tiltrotator with and without tilt cylinders
- OQC System for Material Handlers/Cranes with up to 30 ton lift capabilities
- OQT System for Forklifts from 1-10 Ton
- OQL System for Wheel Loaders from 5-40 Ton

US-based engineering, manufacturing, with a full parts, service, and support team

Regional Sales Managers to support dealer sales team

Focus on coupling system only, no preference on attachment manufactures - works with your current attachment line-up

Discounted pricing on parts
