SENYA-3 CRUSHING PLANT

Adjustable feeding rate. Vibration feeder is used to match with different material.

Wide application range.Concrete ,construction waste, hard rock can be crushed.

High degree of Environment protection, the whole machine is fully enclosed design, to avoid creating a lot of dust

Characteristics:

- High capacity and crushing efficiency
- **Self contained engine**
- Easy transport and fast set-up
- **Convenient operation and maintenance**
- **High mobility**
- Low operation cost
- **Meet strict environmental standards**

SENYA-3 Jaw Crushing Plants is applicable for:

- Concrete and brick crushing
- **Asphalt recycling**
- **Construction waste recycling**

Portable crushing plant	SENYA-3
Туре	Jaw crusher
Model	PE 11" x 19"
Capacity(t/h)	up to 30
Power (kw)	15
Generator(kw)	30
Fuel	Gas
Max feeding size (inches)	up tp 8"
Hopper Volumn (yard3)	1.5
Feeding Height (inches)	9'2"
Vibration feeder power (kw)	0.75
Discharge size (inches)	3/4"~3"
Conveyor belt width (inches)	12.5
Belt power (kw)	1.5
Outline dimension (LXWXH)	20' x 6'8" x 7'9"
Approx weight(Lb)	13400
